Dear Colleagues,

I am reaching out to share announcements about two HORIZON-MSCA-COFUND programmes that are currently accepting applications.

## **1) Doctoral Training Programme on Sustainable Water Management (Water4All) at Izmir Institute of Technology (IYTE):**

IYTE is seeking a researcher to pursue a PhD within the Water4All project. This opportunity is part of the MSCA-COFUND PhD Scholarship Programme, a collaborative effort between IYTE, Istanbul Technical University (ITU), Middle East Technical University (METU), and Gebze Technical University (GTÜ). Candidates from around the world, regardless of their nationality, are encouraged to apply.

## **2) Postdoctoral Researcher Opportunity at Yıldız Technical University (YTU) under the ECO-SPHERE Project:**

YTU is looking for a postdoctoral researcher as part of the MSCA-COFUND Postdoctoral Scholarship Programme within the ECO-SPHERE project. This programme welcomes applications from international candidates irrespective of their nationality.

Please find attached detailed announcements for both programmes, including information about eligibility criteria, application procedures, and deadlines.

We kindly ask for your support in making announcements to researchers from Iran who can apply.

Best regards,

**Gözde YURTTAGÜL**

Scientific Programmes Expert

**International Cooperation Department**

**Bilateral and Multilateral Relations Division**
